PFIAB/NSC Review Completed.

16 September 1969

MEMORANDUM FOR: Chief, Intelligence Liaison Support Staff/DDS&T

25X1

ATTENTION :

SUBJECT :

Annual Report to PFIAB

REFERENCE :

Memorandum to D/OCS from ILSS/DDS&T,
Dtd 15 September 1969, same subject

I believe that the major headings of the subject report which Mr. Bross has listed for comment can better be addressed by intelligence collection and production components than by OCS. Therefore, I have no additional information for the PFIAB report beyond that already included in the PPB draft of this report which was coordinated in August 1969.

MEMORANDUM FOR: Deputy Director for Science and Technology

SUBJECT: DCI Annual Report to the President's Foreign Intelligence Advisory Board (PFIAB)

1. As you will recall, the Director is required to make an annual report to the PFIAB on "Coordination of the U.S. Foreign Intelligence Effort." Last year you were very helpful in submitting items to be included in this report and I would like to solicit your assistance again this year.

2. The major headings of the report are:

a. Assessment of the organization and functioning of the United States Intelligence Board and its committees.

b. Major problems existing in the coordination of the intelligence community.

c. Significant gaps, deficiencies and undesirable duplication of the various U.S. intelligence agencies.

d. Specific actions to strengthen the effectiveness of the over-all intelligence effort.

3. We have all agreed in the past that these reports should be short and I am asking only for brief summaries of major items as you see them. Rough notes will do if this will make things easier and quicker for you. In this connection, you might find it useful to review last year's report as it finally went forward and I am attaching a copy. Some of the material that you submitted to PPB for this year's Agency report to the PFIAB might be pertinent to the community report.
